Perched along the stunning shores of Sugar Beach in Great Harbour Cay is this "historic" beach front house. It was designed by President Roosevelt's grandson and built in 1974. The main level features two bedrooms, one bath, an open living, kitchen, dining area with doors leading out onto an open deck, facing the sea. The upper floor comprises of an ensuite bedroom and a large deck with sea views of both the east and west sides of the island. There is a garage, along with a generator room. Great Harbour Cay is quickly becoming a hot destination in the Bahamas for its unspoiled beauty and tranquility, white sandy beaches, and crystal clear waters. Don't miss this affordable beach front opportunity....read more on our website.
