Secluded beachfront acreage with 335 feet of unspoiled sandy beach in a cove on the Atlantic coast offers privacy, stunning views, and a serene environment. The 40-foot elevation above sea level is excellent for safety against storm surges while allowing proximity to the ocean. Having nearby amenities like grocery stores, restaurants, bars, and a service station is convenient without compromising the secluded charm. This would be an ideal spot for a vacation home, an eco-retreat, or even a boutique beachfront development. [...read more on our website.](#)
