From the upper deck of your secluded home elevated on a hill, enjoy the sunrise over Turtle Cove Bay and the Atlantic Ocean, and later, the sunset over the hills to the west. This Topsider home was built in the USA with the "tropical package", is engineered to "cat 5" hurricanes. The home features an upper level for the Owners and a lower level guest suite. Each level is complete with a living area, kitchen and dining space, bedroom with w/i closets, and bathroom, plus plenty of outdoor living space on wrap-around decks. Both levels are finished in durable cypress T&G on the walls and ceilings, ceramic tile flooring, and vinyl-clad double-pane windows; each level has its own split system air conditioner and water heater. There is a large 17,000-gallon rainwater cistern. The property...read more on our website.
