Located on an elevated 9,827 sq. ft. lot, in the quiet area of Blue Hill Heights, this home has been converted into 3-units and 1-incomplete efficiency. The main unit is very spacious, with a large kitchen and living room, making it perfect for a family home. The yard is sizable and presents room for expansion. Renovations are required, however for the savvy investor, this property has great potential given its central location and square footage. The property is vacant and easy to show....read more on our website.
