This prime multi-family canal lot in the Bahamas Terrace area of Freeport offers an exceptional investment opportunity with 111 feet of deep-water frontage. Ideally suited for the development of an apartment complex or a boutique multi-unit residential project, the property provides ample space for private dockage and water-based amenities.

As one of three side-by-side parcels currently available, this lot can be purchased individually or as part of a larger assembly for developers seeking an expansive footprint. With the adjacent lots also on the market, there is a rare opportunity to negotiate a package deal and secure significant acreage on the canal.
